ACKNOWLEDGMENTS

The Ministry of Environment, Lands and Parks wishes to acknowledge three partners whose contributions were invaluable in the completion of the *Aboriginal Water Rights Report Series:*

The Ministry of Aboriginal Affairs, was a critical source of funding, support and direction for this project.

The U-Vic Geography Co-op Program, was instrumental in providing the staffing resources needed to undertake this challenging task. Through the services of June Whitmore and her office, the project benefited from the research, writing, editing and co-ordination of these outstanding students:

Jas Gill
Julie Steinhauer
Kelly Babcock
Daniella Mogus
Miranda Griffith
Christina Rocha
Rachel Abrams
Elizabeth Lee
Sara Cheevers

The services of Clover Point Cartographics Limited of Victoria, was responsible for the preparation of most of the map drawings, which form a valuable part of these documents.

In addition to these three key partners, I must acknowledge the valuable contributions of other Water Management staff, past and present, including Jack Farrell, Jim Mattison, Richard Penner, Diana Jolly, Greg Blaney, Gary Lucas and Kim Johnston.

The sheer numbers of First Nations groups' with histories of water rights made the completion of the Report Series seem, at times, prolonged. The determination, patience and vision of the partners was essential in the completion of the Series and is gratefully acknowledged.

Gary Robinson
Project Manager

FIRST NATIONS WATER RIGHTS REPORT

BAND: Spuzzum

ADDRESS: R.R. 1, Yale, BC, V0K 2S0

CHIEF: James Johnson

PHONE: 863-2205 **FAX**: 455-2772

AFFILIATION: Shuswap Nation Tribal Council

LOCATION:

The Spuzzum Band occupies sixteen reserves situated within the Cascade Mountains in an area north of the town of Yale. These reserves range in size from 0.3 to 126.5 hectares. The Spuzzum reserves include:

Papsilqua 2	Spuzzum 1A	Yelakin 4
Papsilqua 2A	Spuzzum 7	Yelakin 4A
Papsilqua 2B	Chapman's Bar 10	Saddle Rock 9
Stout 8	Long Tunnel 5	Skuet 6
Teequaloose 3	Long Tunnel 5A	Spuzzum 1
Teequaloose		

The following reserves have an indication of an allocation of water rights:

- Long Tunnel 5: a 2.6 hectare reserve located on the right bank of the Fraser River, immediately north of Alexandra Tunnel. The reserve lies directly adjacent to the eastern border of Long Tunnel 5A

- Papsilqua 2: a 16.6 hectare reserve situated on the left bank of the Fraser River. It's northernmost border lies forms the southern border of Skuet Reserve No. 6.

- Skuet 6: a 4.7 hectare located on the left bank of the Fraser River, just southeast of Alexandra Bridge.

- Spuzzum 1: a 115.9 hectare reserve situated on the right bank of the Fraser River, south of where Inkawthia Creek enters the Fraser River.

- Teequaloose 3: a 7.7 hectare reserve located on the right bank of the Fraser River, situated on the southwestern border of Tequaloose Reserve No. 3A.

¥ Yelakin 4: a 26.5 hectare reserve located on the right bank of the Fraser River, northeast of Long Tunnel Reserve Nos. 5 and 5A.

The most recent population figures from the Ministry of Finance indicate that the Spuzzum Band's total population, including registered and non-registered members living on and off reserve, is 164.

Within the Cascade Mountains, the Spuzzum reserves lie within the Douglas Fir Biogeoclimatic Zone. This zone is the second warmest forest zone in the dry southern interior. The Spuzzum reserves lie at elevations ranging from 400 to 2,200 metres above mean sea level, and experience climate ranging from an average daily temperature of -5 to -10 degrees centigrade in January, to more than 20 degrees centigrade in July. The average annual rainfall for this area is 30 to 50 centimeters.

Water Courses of significance include:

¥ Gilt Creek, which flows southwest through Papsilqua Reserve No. 2B before it enters the Fraser River.

¥ Inkawthia Creek, which flows northeast and connects with Spuzzum Creek, which then flows north of Spuzzum Reserve No. 1.

¥ Papsilqua Creek, which flows southwest through the northerly portion of Papsilqua Reserve No. 2.

¥ Six Creek, which flows west through Skuet Reserve No. 6 before it enters the Fraser River.

¥ Skeemis Creek, which flows north past the western borders of Spuzzum Reserve Nos. 1 and 1A before it joins Spuzzum Creek.

¥ Skuet Spring, which is situated in the northerly portion of Skuet No. 6.

¥ Tikwalus Creek, which flows in an easterly direction and enters the right bank of the Fraser River just north of Teequaloose Reserve No. 3A.

¥ Spuzzum Creek, which flows southeast and passes along the northern border of Spuzzum Reserve No. 1 before it enters the Fraser River.

¥ Tunnel Creek, which flows east through Long Tunnel Reserve No. 5 before it enters the Fraser River.

¥ Yelakin Creek, which flows in a southwesterly direction through Yelakin Reserve No. 4 before it enters the Fraser River.

WATER ALLOCATIONS:

There is no record of any allocations of water made by an Order in Council of the Lieutenant Governor in Council.

The water rights of the Spuzzum Band have been recorded or affected by four actions of government over the years:

1) Allotments by Indian Reserve Commissioners.

   Following confederation, the Province and the Dominion established an Indian Reserve Commission to reserve lands for the Indians without their agreement and for the transfer of those lands to the Dominion. In setting apart lands for reserves, the Reserve Commissioners made it their practice to allot water with the lands. It is understood that this practice was unique among Indian Reserves in Canada and the authority of these Commissioners to allot water rights has always been disputed by the Province.

2) Determinations of the Board of Investigation under the *Water Act, 1914* of claims of the Department of Indian Affairs, and subsequent issue of water licences.

3) Granting of water licences from Federal Government application for licences for the use of water on reserves.

4) Actions to amend, cancel or record as abandoned rights under licence pursuant to provisions in the *Water Act*..

Minutes of Decision: Allocations Made by the Indian Reserve Commission

The Indian Reserve Commission made an allocation which appears to be for the benefit of the Spuzzum Band. This Minute of Decision lists the amount of water being allocated and gives a brief description of the water source. The reserve is now unidentifiable using the information given. The allocation which has been made to the Spuzzum Band, as described in AGBC # 590457 (see attachment) is:

Date	Inches	Sources of Supply
May 21, 1878	5	*From all sources of water supply now used or which may be available.* The water sources referred to here are described as being on a portion of land containing approximately 2 or 3 acres adjoining a small gulch about 1/2 mile below a bridge on the east side of the Fraser river. It is unclear to which reserve this water allocation was referring to. However, it

is most likely that this allocation was intended for Skuet Reserve No. 6, as this reserve is located just south of the Alexandra Bridge on the east side of the Fraser River. It should be noted that Six Creek and Skuet Spring are water sources within this reserve.

HISTORY, CURRENT STATUS AND NOTES:

The history of water rights, the current status of rights, and notes for the Spuzzum Band with respect to Gilt Creek, Inkawthia Creek and Skeemis Creek, Six Creek and Skuet Spring, Spuzzum Creek, Tikwalus Creek, Tunnel Creek, and Yelakin Creek are as follows:

Gilt Creek

History:

Jun 15, 1939 — In accordance with an application made by the Director of Indian Affairs on behalf of the Spuzzum Band, the Comptroller of Water Rights issued Final Water Licence 10681. This licence has a precedence date of April 11, 1939 and authorizes the diversion of 10 acre feet per year (from April 1 to September 30) from Gilt Creek for irrigation purpose. Of this amount, 500 gallons of water per day can be used for domestic purpose. The land to which this licence is appurtenant is Papsilqua Reserve No. 2, of which 10 acres may be irrigated.

Jun 30, 1939 — In connection with Final Water Licence No. 10681, a permit was granted to the Director of Indian Affairs, under Section 48, Right of Way over Crown Land (no stumpage fee has been fixed, but in the event of any timber being cut on this right of way the same will be subject to stumpage at current prices plus royalty).

Current Status:

Final Water Licence 10681 is the only active licence on Gilt Creek. It is for the use and benefit of the Spuzzum Band.

Water Survey of Canada has no records of streamflow on Gilt Creek, and there is no other current information on water availability.

Notes:

1. There is no additional information with respect to the rights of the Spuzzum Band on Gilt Creek.

Inkawthia Creek and Skeemis Creek

History:

May 21, 1878 The Minute of Decision of the Indian Reserve Commission allocated the following for the use of the Spuzzum Band:

"all the water they require or may acquire for irrigation or other purposes from Spuzzum Creek, from a spring on the hillside above Shuswap and from all sources of water supply which, on survey, may be found available for all the above mentioned reserves..."

Note: It is assumed that this Minute of Decision was referring to Spuzzum Reserve No. 1. Inkawthia Creek and Skeemis Creek are both sources of water supply within Spuzzum Reserve No. 1.

Oct 22, 1923 At a final hearing before the Board of Investigation, acting pursuant to the Water Act of 1914, the Board determined that on the 26th day of September, 1888, there was filed in the office of the Dominion Lands Agent at New Westminster, B.C., a bona fide application for a record of water from Skeemis Creek, for use on Spuzzum Reserve No. 1. The Order of the Board, numbered 6656, set out that a conditional licence should be issued which would:

(i) provide for the diversion of water from Skeemis Creek,
(ii) take precedence from September 26, 1888,
(iii) authorize diversion of a maximum of 132.7 acre feet per year for irrigation of 88.5 acres of Spuzzum Reserve No. 1, provided that 3,500 gallons per day, throughout the year, could also be used for domestic purpose.

The Comptroller of Water Rights issued Conditional Water Licence 7142, which embodied the terms and conditions set out in Board Order 6656.

Oct 20, 1934 In accordance with an application made by the Superintendent General of Indian Affairs on behalf of the Spuzzum Band, the Comptroller of Water Rights issued Conditional Water Licence 12236. This licence was given a precedence date of August 9, 1934 and authorized the diversion of 60 acre feet per year (from April 1 to September 30) from Inkawthia Creek for irrigation purpose. The land to which this licence is appurtenant is Spuzzum Reserve No. 1, of which 46 acres may be irrigated.

Nov 15, 1934 In connection with Conditional Water Licence No. 12236, a permit was granted to the Superintendent General of Indian Affairs, under Section 50, Right of Way over Crown Land (no stumpage fee has been fixed, but in

the event of any timber being cut on this right of way the same will be subject to stumpage at current prices plus royalty).

Nov 24, 1934 Based on the extent to which the rights granted under the former licence were being exercised at the time, the Comptroller of Water Rights issued Final Water Licence 9001 (in substitution of Conditional Water Licence 7142) to the Superintendent General of Indian Affairs on behalf of the Spuzzum Band. The licence has a precedence date of September 26, 1888 and authorizes diversion of 60 acre feet per year (from April 1 to September 30) from Skeemis Creek, for irrigation purposes on 40 acres of Spuzzum Reserve No. 1. Of this amount, 1,000 gallons per day, year-round may also be for domestic use.

Dec 16, 1940 Based on the extent to which the rights granted under the former licence were being exercised at the time, the Comptroller of Water Rights issued Final Water Licence 11196 (in substitution of Conditional Water Licence Nos. 12236 and 9001) to the Director of Indian Affairs on behalf of the Spuzzum Band. The licence has a precedence date of August 9, 1934 and authorizes diversion of 50 acre feet per year (from April 1 to September 30) from Skeemis and Inkawthia Creeks, for irrigation purpose on 40 acres of Spuzzum Reserve No. 1.

Jan 2, 1941 In connection with Final Water Licence No. 11196, a permit was granted to the Director of Indian Affairs, under Section 20, Right of Way over Crown Land (no stumpage fee has been fixed, but in the event of any timber being cut on this right of way the same will be subject to stumpage at current prices plus royalty).

Apr 15, 1994 Based on the extent to which the rights granted under the former licence were being exercised at the time, the Comptroller of Water Rights issued Conditional Water Licence 107654 to the Spuzzum Band. The licence has a precedence date of December 30, 1992 and authorizes the diversion of 8,500 gallons of water per day, year round (April 1 to October 31) from Skeemis Creek, for industrial (fish washing) purpose. The land to which this licence is appurtenant is Spuzzum Reserve No. 1.

Apr 15, 1994 Based on the extent to which the rights granted under the former licence were being exercised at the time, the Comptroller of Water Rights issued Conditional Water Licence 107655 to the Spuzzum Band. The licence has a precedence date of December 30, 1992 and authorizes the diversion of 5,146,500 gallons of water per year from Inkawthia Creek, for industrial waterworks purpose. The land to which this licence is appurtenant is Spuzzum Reserve No. 1.

Note: This licence is supplementary to Conditional Water Licence 105875 on Skeemis Creek, and the maximum quantity of water which may be diverted under this licence is the quantity which together with the quantity available under Conditional Water Licence 105875 will provide 5,146,500 gallons a year at a maximum rate of withdrawal of 23, 500 gallons a day.

Apr 15, 1994 Based on the extent to which the rights granted under the former licence were being exercised at the time, the Comptroller of Water Rights issued Conditional Water Licence 107656 to the Spuzzum Band. The licence has a precedence date of December 30, 1992 and authorizes the diversion of 8,500 gallons of water per day, year round (April 1 to October 31) from Inkawthia Creek, for industrial (fish washing) purpose. The land to which this licence is appurtenant is Spuzzum Reserve No. 1.

Note: This licence is supplementary to Conditional Water Licence 107654 on Skeemis Creek, and the maximum quantity of water which may be diverted under this licence is the quantity which together with the quantity available under Conditional Water Licence 107654 will provide 8, 500 gallons a day.

Apr 15, 1994 Based on the extent to which the rights granted under the former licence were being exercised at the time, the Comptroller of Water Rights issued Conditional Water Licence 105875 to the Spuzzum Band. The licence has a precedence date of December 30, 1992 and authorizes the diversion of 5,146,500 gallons of water per year (April 1 to October 31) at a maximum rate of withdrawal of 23,500 gallons a day from Skeemis Creek, for waterworks purpose. The land to which this licence is appurtenant is Spuzzum Reserve No. 1.

In connection with Final Water Licence No. 11196 and Conditional Water Licence Nos. 105875, 107654, 107655, and 107656, Permit Over Crown Lands 21060 was granted to the Spuzzum Band. This permit authorized occupation of Crown Land for the construction and maintenance of works.

Current Status:

Inkawthia Creek:

There are currently three active licences on Inkawthia Creek, all of which are held by the Spuzzum Band. Of these licences:

- 1 authorizes the use of 50 acre feet of water for irrigation purpose.
- 1 authorizes the use of 23,500 gallons water per day for waterworks purpose.
- 1 authorizes the use of 8,500 gallons of water per day for processing purpose.

The Spuzzum Band holds Final Water Licence 11196 and Conditional Water Licences 107655 and 107656 which is are first, second and third in priority on Inkawthia Creek.

Water Survey of Canada has no records of streamflow on Inkawthia Creek, and there is no other current information on water availability.

Notes:

1. The Spuzzum Band's prior right to water allotted by the Indian Reserve Commission has not been formally recognized by the Province.

2. Conditional Water Licence 107655 is currently licenced for waterworks purpose. The status of this licence could lead to the designation of the Inkawthia Creek drainage area as a Community Watershed under the Forest Practices Code.

3. Conditional Water Licence 107655 is supplementary to Conditional Water Licence 105875 on Skeemis Creek.

4. Conditional Water Licence 107656 is supplementary to Conditional Water Licence 107654 on Skeemis Creek.

Skeemis Creek:

There are currently three active licences on Skeemis Creek, all of which are held by the Spuzzum Band. Of the licences:

- 1 authorizes the use of 50 acre feet of water for irrigation purpose.

- 1 authorizes the use of 23,500 gallons of water per day for waterworks purpose.

- 1 authorizes the use of for 8,500 gallons of water per day for processing purpose.

The Spuzzum Band holds Final Water Licence 11196 and Conditional Water Licences 105875 and 107654, which are first, second and third in priority on Skeemis Creek.

Water Survey of Canada has no records of streamflow on Skeemis Creek, and there is no other current information on water availability.

Notes:

1. Conditional Water Licence 107654 is currently licenced for waterworks purpose. The status of this licence could lead to the designation of the Skeemis Creek drainage area as a Community Watershed under the Forest Practices Code.

2. Skeemis Creek is noted as fully recorded.

Papsilqua Creek

History:

Oct 22, 1923 At a final hearing before the Board of Investigation, acting pursuant to the Water Act of 1914, the Board determined that on the 26th day of September, 1888, there was filed in the office of the Dominion Lands Agent at New Westminster, B.C., a bona fide application for a record of water from a creek flowing through the northerly portion of Papsilqua Reserve No. 2. The Order of the Board, numbered 6613, set out that a conditional licence should be issued which would:

(i) provide for the diversion of water from a creek flowing through the northerly portion of Papsilqua 2,
(ii) take precedence from September 26, 1888,
(iii) authorize diversion of a maximum of 12.5 acre feet per year for irrigation of 8.3 acres of Skuet Reserve No. 6, provided that 1,000 gallons per day, throughout the year, could also be used for domestic purpose.

Note: The unnamed creek mentioned in Board Order 6613 is presently named Papsilqua Creek.

The Comptroller of Water Rights issued Conditional Water Licence 7146, which embodied the terms and conditions set out in Board Order 6613.

Apr 15, 1939 Based on the extent to which the rights granted under the former licence were being exercised at the time, the Comptroller of Water Rights issued Final Water Licence 10596 (in substitution of Conditional Water Licence 7146) to the Director of Indian Affairs on behalf of the Spuzzum Band. The licence has a precedence date of September 26, 1888 and authorizes the diversion of 4.5 acre feet per year (from April 1 to September 30) from Papsilqua Creek, for irrigation purposes on 3 acres of Papsilqua Reserve No. 2.

Current Status:

There is currently one active licence on Papsilqua Creek. It is for the use and benefit of the Spuzzum Band.

The Spuzzum Band holds Final Water Licence 10596, which is first in priority on Papsilqua Creek.

Final Water Licence 10681 held by the Spuzzum Band for Gilt Creek includes a point of rediversion of water onto Papsilqua Creek. Additional information regarding this licence may be found under the heading Gilt Creek within this report.

Water Survey of Canada has no records of streamflow on Papsilqua Creek, and there is no other current information on water availability.

Notes:

1. The issuance of Final Water Licence 10596 (which substituted Conditional Water Licence 7146) resulted in the reduction of licenced water rights for the Spuzzum Band.

Six Creek and Skuet Spring

History:

Apr 24, 1924 At a final hearing before the Board of Investigation, acting pursuant to the Water Act of 1914, the Board determined that on the 26th day of September, 1888, there was filed in the office of the Dominion Lands Agent at New Westminster, B.C., a bona fide application for a record of water from Skuet Spring and a stream, for use on Skuet Reserve No. 6. The Order of the Board, numbered 6616, set out that a conditional licence should be issued which would:

(i) provide for the diversion of water from Skuet Spring and a stream on the reserve,
(ii) take precedence from September 26, 1888,
(iii) authorize diversion of a maximum of 7 acre feet per year for irrigation of 4.6 acres of Skuet Reserve No. 6, provided that 500 gallons per day, throughout the year, could also be used for domestic purpose.

Note: The unnamed stream mentioned in Board Order 6616 is presently named Six Creek.

The Comptroller of Water Rights issued Conditional Water Licence 7526, which embodied the terms and conditions set out in Board Order 6616.

Dec 11, 1933 An Engineer's Report stated that Skuet Spring has not been used on Skuet Reserve No. 6, and that water is used on the unnamed stream (now known as Six Creek) for domestic purpose only.

Nov 20, 1934 Based on the extent to which the rights granted under the former licence were being exercised at the time, the Comptroller of Water Rights issued Final Water Licence 9024 (in substitution of Conditional Water Licence 7526) to the Superintendent General of Indian Affairs on behalf of the Spuzzum Band. The licence has a precedence date of September 26, 1888 and authorizes the diversion of 500 gallons of water per day, year round

from Six Creek, for domestic purpose on Skuet Reserve No. 6.

Current Status:

Six Creek:

Final Water Licence 9024 is the only active licence on Six Creek. It is for the use and benefit of the Spuzzum Band.

Water Survey of Canada has no records of streamflow on Six Creek, and there is no other current information on water availability.

Notes:

1. There is no additional information with respect to the rights of the Spuzzum Band on Six Creek.

Skuet Spring:

There are currently no active licences on Skuet Spring.

Water Survey of Canada has no records of streamflow on Skuet Spring, and there is no other current information on water availability.

Notes:

1. The issuance of Final Water Licence 9024 (which substituted Conditional Water Licence 7526) resulted in the reduction of licensed water rights for the Spuzzum Band on Skuet Spring.

Spuzzum Creek

History:

May 21, 1878 The Minute of Decision of the Indian Reserve Commission allocated the following for the use of the Spuzzum Band:

"all the water they require or may acquire for irrigation or other purposes from Spuzzum Creek, from a spring on the hillside above Shuswap and from all sources of water supply which, on survey, may be found available for all the above mentioned reserves..."

Note: It is assumed that this Minute of Decision was referring to Spuzzum Reserve No. 1.

Current Status:

There are no current licences on Spuzzum Creek.

Water Survey of Canada has no record of streamflow on Spuzzum Creek, and there is no further information on water availability.

Notes:

1. The Spuzzum Band's prior right to water allotted by the Indian Reserve Commission has not been formally recognized by the Province.

Tikwalus Creek

History:

Oct 22, 1923

At a final hearing before the Board of Investigation, acting pursuant to the Water Act of 1914, the Board determined that on the 26th day of September, 1888, there was filed in the office of the Dominion Lands Agent at New Westminster, B.C., a bona fide application for a record of water from Tikwalus Creek for use on Teequaloose 3. The Order of the Board, numbered 6662, set out that a conditional licence should be issued which would:

(i) provide for the diversion of water from Tikwalus Creek,
(ii) take precedence from September 26, 1888,
(iii) authorize diversion of a maximum of 27 acre feet per year for irrigation of 18 acres of Teequaloose Reserve No. 3, provided that 1,000 gallons per day, throughout the year, could also be used for domestic purpose.

The Comptroller of Water Rights issued Conditional Water Licence 7159, which embodied the terms and conditions set out in Board Order 6662.

Apr 15, 1939

Based on the extent to which the rights granted under the former licence were being exercised at the time, the Comptroller of Water Rights issued Final Water Licence 10597 (in substitution of Conditional Water Licence 7159) to the Director of Indian Affairs on behalf of the Spuzzum Band. The licence has a precedence date of September 26, 1888 and authorizes the diversion of 5 acre feet per annum from Tikwalus Creek, for irrigation purpose on Teequaloose Reserve No. 3.

Apr 26, 1939 In connection with Final Water Licence No. 10597, a permit was granted to the Director of Indian Affairs, under Section 48, Right of Way over Crown Land (no stumpage fee has been fixed, but in the event of any timber being cut on this right of way the same will be subject to stumpage at current prices plus royalty).

Current Status:

Final Water Licence 10597 is the only active licence on Tikwalus Creek. It is for the use and benefit of the Spuzzum Band.

Water Survey of Canada has no records of streamflow on Tikwalus Creek, and there is no other current information on water availability.

Notes:

1. The issuance of Final Water Licence 10597 (which substituted Conditional Water Licence 7159) resulted in the reduction of licensed water rights for the Spuzzum Band.

Tunnel Creek

History:

Apr 24, 1924 At a final hearing before the Board of Investigation, acting pursuant to the Water Act of 1914, the Board determined that on the 26th day of September, 1888, there was filed in the office of the Dominion Lands Agent at New Westminster, B.C., a bona fide application for a record of water from Tunnel Creek, for use on Long Tunnel Reserve No. 5. The Order of the Board, numbered 6664, set out that a conditional licence should be issued which would:

(i) provide for the diversion of water from Tunnel Creek,
(ii) take precedence from September 26, 1888,
(iii) authorize diversion of a maximum of 8 acre feet per year for irrigation of 5 acres of Long Tunnel Reserve No. 5, provided that 500 gallons per day, throughout the year, could also be used for domestic purpose.

The Comptroller of Water Rights issued Conditional Water Licence 7525, which embodied the terms and conditions set out in Board Order 6664.

Sep 21, 1934 The Comptroller of Water Rights issued an Order, in accordance with the notice of proposed cancellation dated June 19, 1934, which cancelled

Conditional Water Licence 7525 .

Note: Further information regarding Conditional Water Licence 7525 is unknown as the corresponding file was destroyed in 1945.

Current Status:

There are no current licences on Tunnel Creek.

Water Survey of Canada has no records of streamflow on Tunnel Creek, and there is no further information on water availability.

Notes:

1. The water rights held by the Spuzzum Band under Conditional Water Licence 7525 on Tunnel Creek were cancelled in 1934.

Yelakin Creek

History:

Apr 24, 1924 At a final hearing before the Board of Investigation, acting pursuant to the Water Act of 1914, the Board determined that on the 26th day of September, 1888, there was filed in the office of the Dominion Lands Agent at New Westminster, B.C., a bona fide application for a record of water from Yelakin Creek and an unnamed creek, for use on Yelakin Reserve No. 4. The Order of the Board, numbered 6619, set out that a conditional licence should be issued which would:

(i) provide for the diversion of water from Yelakin Creek and an unnamed creek,
(ii) take precedence from September 26, 1888,
(iii) authorize diversion of a maximum of 25 acre feet per year for irrigation of 17 acres of Yelakin Reserve No. 4, provided that 500 gallons per day, throughout the year, could also be used for domestic purpose.

The Comptroller of Water Rights issued Conditional Water Licence 7524, which embodied the terms and conditions set out in Board Order 6664.

Jun 13, 1938 The Comptroller of Water Rights issued an Order, in accordance with the notice of proposed cancellation dated July 4, 1934, which cancelled Conditional Water Licence 7524 .

Note: Further information regarding Conditional Water Licence 7524 is unknown as the corresponding file was destroyed in 1945.

Current Status:

There are no current licences on Yelakin Creek.

Water Survey of Canada has no records of streamflow on Yelakin Creek, and there is no other current information on water availability.

Notes:

1. The water rights held by the Spuzzum Band under Conditional Water Licence 7524 on Yelakin Creek and an unnamed creek were cancelled in 1938.

OTHER INFORMATION:

Additional Water Records:

The *Schedule of Indian Reserves in the Dominion, 1913,* is a document published by the federal government, recording each Band's water allocations up to 1913. We believe these records are a compilation of Minute of Decisions, Order-in-Councils, and perhaps other documents. However, as original copies of these documents are unavailable, the dates and information cannot be verified.

Allocations in the *Schedule of Indian Reserves in the Dominion* for the benefit of the Spuzzum Band which are inconsistent with our findings are:

Reserve	Water Allocation
Spuzzum 1	*"200 inches of water recorded from Spuzzum Creek, 50 inches from the creek west of the reserve, 50 inches from the creek one mile below the reserve, and all the water from all other sources of water-supply on the reserve."*
Papsilqua 2	*"20 inches of water recorded from the stream which runs into the lake on the reserve."*

Note: It is assumed that this stream is Papsilqua Creek.

Board Order 6613 (Conditional Water Licence 7142) stated that a

bona fide application for a record of water from a creek on the northerly portion of Papsilqua No. 2 (Papsilqua Creek) has been used for beneficial purposes. The Spuzzum Band was granted 12.5 acre feet of water a year. The quantity authorized under the Board Order is less than the amount stated in the Dominion's schedule (20 inches or 133.3 acre feet).

Teequaloose 3 — *"25 inches of water recorded from the stream which flows through the reserve."*

Note: It is assumed that the stream referred to is Tikwalus Creek.

Board Order 6662 (Conditional Water Licence 7159) stated that a bona fide application for a record of water from Tikwalus Creek has been used for beneficial purposes. The Spuzzum Band was granted 27 acre feet of water a year. The quantity authorized under the Board Order is less than the amount stated in the Dominion's schedule (25 inches or 166.6 acre feet).

Yelakin 4 — *"All the water recorded from all sources of water-supply on the reserve."*

Note: Yelakin Creek and an unnamed Creek are sources of water supply on Yelakin No. 4.

This allocation from Yelakin Creek and an unnamed Creek was cancelled by the Comptroller of Water Rights on June 13, 1938.

Long Tunnel 5 — *"All the water from the small stream which flows through the reserve, and all the water from all other sources of water-supply on the reserve."*

Note: Tunnel Creek is a source of water supply within Long Tunnel No. 5.

This allocation from Tunnel Creek was cancelled by the Comptroller of Water Rights on September 21, 1934.

Skuet 6 — *"All the water recorded from the two streams which flow through the reserve."*

Note: Skuet Spring and Six Creek are sources of water supply on Skuet No. 6.

Board Order 6616 (Conditional Water Licence 7526) stated that a bona fide application for a record of water from Skuet Spring and an unnamed stream (Six Creek) has been used for beneficial purposes. The Spuzzum Band was granted 7 acre feet of water a year. The quantity authorized under the Board Order is less than the amount stated in the Dominion's schedule.

Groundwater Records:

Review of records of the Groundwater Section found no evidence of wells located on any of the Spuzzum Reserves. However, the provision of this groundwater information is voluntary and, therefore, cannot be assumed to be complete.

Alternate Water Sources:

The proximity of the Fraser River to all of the Spuzzum reserves makes it a potential source for water supply.

CONDITIONAL WATER LICENCE.

(For a Irrigation Purpose.)

WHEREAS the Board of Investigation, constituted and acting under the "Water Act, 1914," duly held an investigation respecting the water set out in the order No. 6656, duplicate of which is hereto attached, and in the said order directed the Comptroller of Water Rights to issue a conditional licence in respect of the particular record and claim respectively set out therein, and further therein named the terms and conditions to be embodied in the said licence:

NOW, THEREFORE, I, Comptroller of Water Rights of the Province of British Columbia, in pursuance of the said order and in conformity with the "Water Act, 1914," issue this conditional licence, and declare the rights in and to the use of the said waters held under the said record in respect of the said claim to be such as are set out in the said order; and the terms and conditions of the said order and any exhibits which are therewith incorporated are hereby incorporated herewith and form a part hereof. This licence is appurtenant to Spuzzum I.R. (No.1 Spuzzum).

PROVINCE OF BRITISH COLUMBIA. | WATER RIGHTS BRANCH. | DEPARTMENT OF LANDS.

DETERMINATION AND ORDER.

(FOR A CONDITIONAL WATER LICENCE FOR IRRIGATION PURPOSES.)

BY THE BOARD OF INVESTIGATION
UNDER THE "WATER ACT, 1914."

In the Matter of the Claims of the Department of Indian Affairs to Rights to the Use of the Waters

of Skeemis Creek

in the neighbourhood of Spuzzum, in the NEW WESTMINSTER Asheroft Water District.

NOW, on the 11th day of June, 1920, the above-entitled matter coming on regularly for final hearing before the Board of Investigation; due notice having been given of the time and place of hearing; all and every the steps required under the Act to be taken by the Board before a determination of the said rights and claims should be made having been taken; all evidence, testimony, and proofs filed with the Board or presented in the above-entitled matter having been duly considered; a quorum of the Board being present at the hearing; and the Board being now fully advised in the premises, determines with respect to the said claims (which are on file and designated as Indian File No. 13-14-1) that on the 26th day of September, 1888, there was filed in the office of the Dominion Lands Agent at New Westminster a bona fide application for a record of water from Skeemis Creek, a tributary of the Fraser River, for use on the Spuzzum I.R. (No.1 Spuzzum), and that water from the said creek has been used for beneficial purposes on the said Indian Reserve.

Form 586, W.R.B.—2,000-12-20.

Order No. 6656.

1

Copy for Comptroller

2. The claims of the Department of Indian affairs with respect to the said waters are allowed by the Board to the extent hereinafter specified, and the Comptroller of Water Rights is hereby directed to issue a conditional licence in respect thereof embodying the following terms and conditions:—

(*a.*) The sources of the water supply is Skeemie Creek, a tributary of Spussum Creek.

(*b.*) The points of diversion from the said sources are located as shown in the exhibit marked "A" hereto attached, which is incorporated herewith and made a part hereof, the original of which exhibit is on file in the office of the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C.

(*c.*) The date from which the said licence shall take precedence is 26th September, 1888.

(*d.*) The purpose for which the water is to be used is irrigation.

(*e.*) The maximum quantity of water per annum which may be used when irrigation is extended to all the lands mentioned in subclause (*g*) of this clause, until lawfully altered, is 132.7 acre-feet, and the maximum quantity of water which may be used per annum on each acre actually irrigated until lawfully altered is one and a half (1½) acre-feet: Provided that where sources of supply other than those named in subclause (*a*) hereof are drawn upon for the irrigation of a part or all of the same lands as are described in subclause (*g*) hereof, the maximum quantity of water which may be used under the licence hereby directed to be issued shall be reduced by the quantity which the licensee may be entitled to use from said other sources of supply: Provided further that when the Engineer of the Water District has accumulated the requisite hydrographic data for determining to the satisfaction of the Comptroller the *pro rata* part of the said total quantity to be apportioned to the licence hereby directed to be issued, the Comptroller shall require the surrender of the licence, and shall amend the same by stating the particular quantity to which the licensee is entitled from the particular sources named therein.

(*f.*) The period of the year during which the water may be used is between the first day of April and the thirtieth day of September.

(*g.*) The water may be used on the Spussum I.R. (No.1 Spussum) of which 88.5 acres are said to be irrigable. The extent and location of the said irrigable lands are more particularly shown in the said Exhibit "A."

(*h.*) The works which are required to be constructed before the issue of a final licence are the clearing, stumping, and levelling of the irrigable lands on the said reserve and the additional works required for conducting thereto the maximum quantity of water hereby authorized to be diverted.

(*i.*) The execution of the said works shall be commenced or resumed on or before the first day of June, 1924, and shall be prosecuted with due diligence and in a workmanlike manner and to the satisfaction of the Comptroller of Water Rights.

(*j.*) The said works shall be completed and the quantity of water to which the licensee is entitled beneficially used for the purpose set out in the licence on or before the first day of November, 1930.

(*k.*) Before any change is made in the said works which would be a material deviation from the plans as approved or the works as accepted by the Comptroller, plans of such proposed change must be filed with the Comptroller and approved by him.

Board Order No.6656.

Copy for Comptroller

(*l.*) The nature and the extent of the incidental uses permitted under the licence are: For domestic purposes, the use of 3,500 gallons a day of water from any or all the said sources of supply during the whole of the year; and for storage purpose, such quantity of water (not exceeding [redacted] acre-feet) as, together with the natural flow-water used hereunder, will be necessary to secure to the licensee the quantity granted hereunder. The water which may be so stored shall be that of [redacted] and it may be stored (accumulated) in a reservoir at [redacted] between the first day of October in each year and the first day of June in the succeeding year, and may be used as provided for in subclauses (*d*), (*e*), and (*f*) of this clause, but such uses shall not enlarge the quantity of water allowed by subclause (*e*) hereof.

(*m.*) The Board may extend the time for the commencement, resumption, or completion of the execution of the works on being satisfied that it is in the public interest and that it will not injuriously affect the rights of any licensee.

(*n.*) The licence shall not in any way be deemed to be a final licence for the use of water, but shall have the effect only of a conditional licence issued under Part V. of the "Water Act, 1914," and shall be subject to all the provisions of the said Act, including the filing of proof of the completion of the said works and the putting of the water to such beneficial use within the time limited by the provisions of section 117 of the said Act.

3. Pending the issue of the licence hereby authorized to be issued, the terms and conditions of this order shall govern the respective rights of the record-holders or claimants affected thereby.

PROVINCE OF BRITISH COLUMBIA. | WATER RIGHTS BRANCH. | DEPARTMENT OF LANDS.

DETERMINATION AND ORDER.

(FOR A CONDITIONAL WATER LICENCE FOR IRRIGATION PURPOSES.)

BY THE BOARD OF INVESTIGATION
UNDER THE "WATER ACT, 1914."

In the Matter of the Claims of the Department of Indian Affairs to Rights to the Use of the Waters

of a creek flowing through the northerly portion of Papsilqua I.R. (No.2 Spuzzum)

in the neighbourhood of Spuzzum, in the

Ashcroft Water District.

NOW, on the 10th day of June, 1920, the above-entitled matter coming on regularly for final hearing before the Board of Investigation; due notice having been given of the time and place of hearing; all and every the steps required under the Act to be taken by the Board before a determination of the said rights and claims should be made having been taken; all evidence, testimony, and proofs filed with the Board or presented in the above-entitled matter having been duly considered; a quorum of the Board being present at the hearing; and the Board being now fully advised in the premises, determines with respect to the said claims (which are on file and designated as Indian File No. 9-10-1) that, on the 26th day of September, 1888, there was filed in the office of the Dominion Lands Agent at New Westminster a bona fide application for a record of water from a creek on the northerly portion of Papsilqua I.R. (No.2 Spuzzum) for use on the said Reserve, and that water from the said creek has been used for beneficial purposes on the said Indian Reserve.

Form 588. W.R.B.—2,000-12-20.

Order No. 6613.

Copy for Comptroller

2. The claims of the Department of Indian affairs with respect to the said waters are allowed by the Board to the extent hereinafter specified, and the Comptroller of Water Rights is hereby directed to issue a conditional licence in respect thereof embodying the following terms and conditions:—

(*a.*) The source of the water supply is a creek on the northerly portion of Papaiqua I.R. (No.2 Spuzzum).

(*b.*) The point of diversion from the said source is located as shown in the exhibit marked "A" hereto attached, which is incorporated herewith and made a part hereof, the original of which exhibit is on file in the office of the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C.

(*c.*) The date for which the said licence shall take precedence is 26th September, 1888.

(*d.*) The purpose for which the water is to be used is irrigation.

(*e.*) The maximum quantity of water per annum which may be used when irrigation is extended to all the lands mentioned in subclause (*g*) of this clause, until lawfully altered, is 12.5 acre-feet, and the maximum quantity of water which may be used per annum on each acre actually irrigated until lawfully altered is one and a half (1½) acre-feet: Provided that where sources of supply other than those named in subclause (*a*) hereof are drawn upon for the irrigation of a part or all of the same lands as are described in subclause (*g*) hereof, the maximum quantity of water which may be used under the licence hereby directed to be issued shall be reduced by the quantity which the licensee may be entitled to use from said other sources of supply: Provided further that when the Engineer of the Water District has accumulated the requisite hydrographic data for determining to the satisfaction of the Comptroller the *pro rata* part of the said total quantity to be apportioned to the licence hereby directed to be issued, the Comptroller shall require the surrender of the licence, and shall amend the same by stating the particular quantity to which the licensee is entitled from the particular sources named therein.

(*f.*) The period of the year during which the water may be used is between the first day of April and the thirtieth day of September.

(*g.*) The water may be used on the Papaiqua I.R. (No.2 Spuzzum) of which 8.3 acres are said to be irrigable. The extent and location of the said irrigable lands are more particularly shown in the said Exhibit "A."

(*h.*) The works which are required to be constructed before the issue of a final licence are the clearing, stumping, and levelling of the irrigable lands on the said reserve and the additional works required for conducting thereto the maximum quantity of water hereby authorized to be diverted.

(*i.*) The execution of the said works shall be commenced or resumed on or before the first day of June, 1924, and shall be prosecuted with due diligence and in a workmanlike manner and to the satisfaction of the Comptroller of Water Rights.

(*j.*) The said works shall be completed and the quantity of water to which the licensee is entitled beneficially used for the purpose set out in the licence on or before the first day of November, 1930.

(*k.*) Before any change is made in the said works which would be a material deviation from the plans as approved or the works as accepted by the Comptroller, plans of such proposed change must be filed with the Comptroller and approved by him.

Board Order No.6613.

Copy for Comptroller

(*l.*) The nature and the extent of the incidental uses permitted under the licence are: For domestic purposes, the use of 1,000 gallons a day of water from any or all the said sources of supply during the whole of the year; and for storage purpose, such quantity of water (not exceeding [redacted] acre-feet) as, together with the natural flow-water used hereunder, will be necessary to secure to the licensee the quantity granted hereunder. The water which may be so stored shall be that of [redacted] and it may be stored (accumulated) in a reservoir at [redacted] between the first day of October in each year and the first day of June in the succeeding year, and may be used as provided for in subclauses (*d*), (*e*), and (*f*) of this clause, but such uses shall not enlarge the quantity of water allowed by subclause (*e*) hereof.

(*m.*) The Board may extend the time for the commencement, resumption, or completion of the execution of the works on being satisfied that it is in the public interest and that it will not injuriously affect the rights of any licensee.

(*n.*) The licence shall not in any way be deemed to be a final licence for the use of water, but shall have the effect only of a conditional licence issued under Part V. of the "Water Act, 1914," and shall be subject to all the provisions of the said Act, including the filing of proof of the completion of the said works and the putting of the water to such beneficial use within the time limited by the provisions of section 117 of the said Act.

3. Pending the issue of the licence hereby authorized to be issued, the terms and conditions of this order shall govern the respective rights of the record-holders or claimants affected thereby.

(FOR A CONDITIONAL WATER LICENCE FOR IRRIGATION PURPOSES.)

BY THE BOARD OF INVESTIGATION
UNDER THE "WATER ACT, 1914."

In the Matter of the Claims of the Department of Indian Affairs to Rights to the Use of the Waters of Tikwalus Creek in the neighbourhood of Spuzzum, in the Ashcroft Water District.

NOW, on the 11th day of June, 1920, the above-entitled matter coming on regularly for final hearing before the Board of Investigation; due notice having been given of the time and place of hearing; all and every the steps required under the Act to be taken by the Board before a determination of the said rights and claims should be made having been taken; all evidence, testimony, and proofs filed with the Board or presented in the above-entitled matter having been duly considered; a quorum of the Board being present at the hearing; and the Board being now fully advised in the premises, determines with respect to the said claims (which are on file and designated as Indian File No. 12-14-1) that on the 26th day of September, 1888, there was filed in the office of the Dominion Lands Agent at New Westminster a bona fide application for a record of water from Tikwalus Creek, a tributary of the Fraser River, for use on the Tzequaloose I.R. (No. 3 Spuzzum), and that water from the said creek has been used for beneficial purposes on the said Indian Reserve.

Form 588, W.R.B.—2,000-12-20. Order No. 6662.

Copy for Comptroller

2. The claims of the Department of Indian affairs with respect to the said waters are allowed by the Board to the extent hereinafter specified, and the Comptroller of Water Rights is hereby directed to issue a conditional licence in respect thereof embodying the following terms and conditions:—

(*a*.) The sources of the water supply is Tikwalus Creek, a tributary of Fraser River.

(*b*.) The points of diversion from the said sources ~~are~~ is located as shown in the exhibit marked "A" hereto attached, which is incorporated herewith and made a part hereof, the original of which exhibit is on file in the office of the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C.

(*c*.) The date ~~for~~ from which the said licence shall take precedence is 26th September, 1908.

(*d*.) The purpose for which the water is to be used is irrigation.

(*e*.) The maximum quantity of water per annum which may be used when irrigation is extended to all the lands mentioned in subclause (*g*) of this clause, until lawfully altered, is twenty-seven (27) acre-feet, and the maximum quantity of water which may be used per annum on each acre actually irrigated until lawfully altered is one and a half (1½) acre-feet: Provided that where sources of supply other than those named in subclause (*a*) hereof are drawn upon for the irrigation of a part or all of the same lands as are described in subclause (*g*) hereof, the maximum quantity of water which may be used under the licence hereby directed to be issued shall be reduced by the quantity which the licensee may be entitled to use from said other sources of supply: Provided further that when the Engineer of the Water District has accumulated the requisite hydrographic data for determining to the satisfaction of the Comptroller the *pro rata* part of the said total quantity to be apportioned to the licence hereby directed to be issued, the Comptroller shall require the surrender of the licence, and shall amend the same by stating the particular quantity to which the licensee is entitled from the particular sources named therein.

(*f*.) The period of the year during which the water may be used is between the first day of April and the thirtieth day of September.

(*g*.) The water may be used on the Tsequaloose I.R. (No.3 Spuzzum) of which 18 acres are said to be irrigable. The extent and location of the said irrigable lands are more particularly shown in the said Exhibit "A."

(*h*.) The works which are required to be constructed before the issue of a final licence are the clearing, stumping, and levelling of the irrigable lands on the said reserve and the additional works required for conducting thereto the maximum quantity of water hereby authorized to be diverted.

(*i*.) The execution of the said works shall be commenced or resumed on or before the first day of June, 1924, and shall be prosecuted with due diligence and in a workmanlike manner and to the satisfaction of the Comptroller of Water Rights.

(*j*.) The said works shall be completed and the quantity of water to which the licensee is entitled beneficially used for the purpose set out in the licence on or before the first day of November, 1930.

(*k*.) Before any change is made in the said works which would be a material deviation from the plans as approved or the works as accepted by the Comptroller, plans of such proposed change must be filed with the Comptroller and approved by him.

Board Order No.6662.

Copy for Comptroller

(*l.*) The nature and the extent of the incidental uses permitted under the licence are: For domestic purposes, the use of 1,000 gallons a day of water from any or all the said sources of supply during the whole of the year; and for storage purposes, such quantity of water (not exceeding [redacted] acre-feet) as, together with the natural flow-water used hereunder, will be necessary to secure to the licensee the quantity granted hereunder. The water which may be so stored shall be that of [redacted] and it may be stored (accumulated) in a reservoir at [redacted] between the first day of October in each year and the first day of June in the succeeding year, and may be used as provided for in subclauses (*d*), (*e*), and (*f*) of this clause, but such uses shall not enlarge the quantity of water allowed by subclause (*e*) hereof.

(*m.*) The Board may extend the time for the commencement, resumption, or completion of the execution of the works on being satisfied that it is in the public interest and that it will not injuriously affect the rights of any licensee.

(*n.*) The licence shall not in any way be deemed to be a final licence for the use of water, but shall have the effect only of a conditional licence issued under Part V. of the "Water Act, 1914," and shall be subject to all the provisions of the said Act, including the filing of proof of the completion of the said works and the putting of the water to such beneficial use within the time limited by the provisions of section 117 of the said Act.

3. Pending the issue of the licence hereby authorized to be issued, the terms and conditions of this order shall govern the respective rights of the record-holders or claimants affected thereby.

DETERMINATION AND ORDER.

(FOR A CONDITIONAL WATER LICENCE FOR IRRIGATION PURPOSES.)

BY THE BOARD OF INVESTIGATION
UNDER THE "WATER ACT, 1914."

In the Matter of the Claims of the Department of Indian Affairs to Rights to the Use of the Waters

of Yelakin Creek and an un-named creek, tributaries of Fraser R.

in the neighbourhood of Spuzzum, in the

Ashcroft Water District.

NOW, on the 10th day of June, 1920, the above-entitled matter coming on regularly for final hearing before the Board of Investigation; due notice having been given of the time and place of hearing; all and every the steps required under the Act to be taken by the Board before a determination of the said rights and claims should be made having been taken; all evidence, testimony, and proofs filed with the Board or presented in the above-entitled matter having been duly considered; a quorum of the Board being present at the hearing; and the Board being now fully advised in the premises, determines with respect to the said claims (which are on file and designated as Indian File No. 6-10-1 that on the 26th day of September 1888 there was filed in the office of the Dominion Lands Agent at New Westminster, B.C. a bona fide application for a record of water from Yelakin Creek and an un-named creek, tributaries of the Fraser River, for use on the Yelakin Indian Reserve (No.4 Spuzzum) and that water from the said creeks has been used for beneficial purposes on the said Indian Reserve.

2. The claims of the Department of Indian affairs with respect to the said waters are allowed by the Board to the extent hereinafter specified, and the Comptroller of Water Rights is hereby directed to issue a conditional licence in respect thereof embodying the following terms and conditions:—

(*a*.) The sources of the water supply are Yelakin Creek and an un-named creek, tributaries of Fraser River.

(*b*.) The points of diversion from the said sources are located as shown in the exhibit marked "A" hereto attached, which is incorporated herewith and made a part hereof, the original of which exhibit is on file in the office of the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C.

(*c*.) The date ~~from~~ which the said licence shall take precedence is 26th September 1888.

(*d*.) The purpose for which the water is to be used is irrigation.

(*e*.) The maximum quantity of water per annum which may be used when irrigation is extended to all the lands mentioned in subclause (*g*) of this clause, until lawfully altered, is 25 acre-feet, and the maximum quantity of water which may be used per annum on each acre actually irrigated until lawfully altered is 1½ acre-feet: Provided that where sources of supply other than those named in subclause (*a*) hereof are drawn upon for the irrigation of a part or all of the same lands as are described in subclause (*g*) hereof, the maximum quantity of water which may be used under the licence hereby directed to be issued shall be reduced by the quantity which the licensee may be entitled to use from said other sources of supply: Provided further that when the Engineer of the Water District has accumulated the requisite hydrographic data for determining to the satisfaction of the Comptroller the *pro rata* part of the said total quantity to be apportioned to the licence hereby directed to be issued, the Comptroller shall require the surrender of the licence, and shall amend the same by stating the particular quantity to which the licensee is entitled from the particular sources named therein.

(*f*.) The period of the year during which the water may be used is between the first day of April and the thirtieth day of September.

(*g*.) The water may be used on the Yelakin Indian Reserve (No.4 Spuzzum) of which 17 acres are said to be irrigable. The extent and location of the said irrigable lands are more particularly shown in the said Exhibit "A."

(*h*.) The works which are required to be constructed before the issue of a final licence are the clearing, stumping, and levelling of the irrigable lands on the said reserve and the additional works required for conducting thereto the maximum quantity of water hereby authorized to be diverted.

(*i*.) The execution of the said works shall be commenced or resumed on or before the first day of June, 1924, and shall be prosecuted with due diligence and in a workmanlike manner and to the satisfaction of the Comptroller of Water Rights.

(*j*.) The said works shall be completed and the quantity of water to which the licensee is entitled beneficially used for the purpose set out in the licence on or before the first day of November, 1930.

(*k*.) Before any change is made in the said works which would be a material deviation from the plans as approved or the works as accepted by the Comptroller, plans of such proposed change must be filed with the Comptroller and approved by him.

2. The claims of the Department of Indian affairs with respect to the said waters are allowed by the Board to the extent hereinafter specified, and the Comptroller of Water Rights is hereby directed to issue a conditional licence in respect thereof embodying the following terms and conditions:—

(*a.*) The sources of the water supply are Skuat Spring and an un-named stream, tributaries of Fraser River.

(*b.*) The points of diversion from the said sources are located as shown in the exhibit marked "A" hereto attached, which is incorporated herewith and made a part hereof, the original of which exhibit is on file in the office of the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C.

(*c.*) The date ~~for~~ from which the said licence shall take precedence is 26th September 1888.

(*d.*) The purpose for which the water is to be used is irrigation.

(*e.*) The maximum quantity of water per annum which may be used when irrigation is extended to all the lands mentioned in subclause (*g*) of this clause, until lawfully altered, is 7 acre-feet, and the maximum quantity of water which may be used per annum on each acre actually irrigated until lawfully altered is 1½ acre-feet: Provided that where sources of supply other than those named in subclause (*a*) hereof are drawn upon for the irrigation of a part or all of the same lands as are described in subclause (*g*) hereof, the maximum quantity of water which may be used under the licence hereby directed to be issued shall be reduced by the quantity which the licensee may be entitled to use from said other sources of supply: Provided further that when the Engineer of the Water District has accumulated the requisite hydrographic data for determining to the satisfaction of the Comptroller the *pro rata* part of the said total quantity to be apportioned to the licence hereby directed to be issued, the Comptroller shall require the surrender of the licence, and shall amend the same by stating the particular quantity to which the licensee is entitled from the particular sources named therein.

(*f.*) The period of the year during which the water may be used is between the first day of April and the thirtieth day of September.

(*g.*) The water may be used on the Skuat Indian Reserve (No.6 Spuzzum) of which 4.6 acres are said to be irrigable. The extent and location of the said irrigable lands are more particularly shown in the said Exhibit "A."

(*h.*) The works which are required to be constructed before the issue of a final licence are the clearing, stumping, and levelling of the irrigable lands on the said reserve and the additional works required for conducting thereto the maximum quantity of water hereby authorized to be diverted.

(*i.*) The execution of the said works shall be commenced or resumed on or before the first day of June, 1924, and shall be prosecuted with due diligence and in a workmanlike manner and to the satisfaction of the Comptroller of Water Rights.

(*j.*) The said works shall be completed and the quantity of water to which the licensee is entitled beneficially used for the purpose set out in the licence on or before the first day of November, 1930.

(*k.*) Before any change is made in the said works which would be a material deviation from the plans as approved or the works as accepted by the Comptroller, plans of such proposed change must be filed with the Comptroller and approved by him.

Copy for Comptroller

(*l.*) The nature and the extent of the incidental uses permitted under the licence are: For domestic purposes, the use of 500 gallons a day of water from any or all the said sources of supply during the whole of the year; and for storage purpose, such quantity of water (not exceeding [redacted] acre-feet) as, together with the natural flow-water used hereunder, will be necessary to secure to the licensee the quantity granted hereunder. The water which may be so stored shall be that of [redacted] and it may be stored (accumulated) in a reservoir at [redacted] between the first day of October in each year and the first day of June in the succeeding year, and may be used as provided for in subclauses (*d*), (*e*), and (*f*) of this clause, but such uses shall not enlarge the quantity of water allowed by subclause (*c*) hereof.

(*m.*) The Board may extend the time for the commencement, resumption, or completion of the execution of the works on being satisfied that it is in the public interest and that it will not injuriously affect the rights of any licensee.

(*n.*) The licence shall not in any way be deemed to be a final licence for the use of water, but shall have the effect only of a conditional licence issued under Part V. of the "Water Act, 1914," and shall be subject to all the provisions of the said Act, including the filing of proof of the completion of the said works and the putting of the water to such beneficial use within the time limited by the provisions of section 117 of the said Act.

3. Pending the issue of the licence hereby authorized to be issued, the terms and conditions of this order shall govern the respective rights of the record-holders or claimants affected thereby.

Made and entered this 21st day of April, 1924.

CONDITIONAL WATER LICENCE.

Superintendent-General of Indian Affairs, of Ottawa, Canada, is

hereby authorized to divert and use water as follows:—

(a.) The source of the water-supply is Inkawthia creek, a tributary of Spuzzum creek.

(b.) The point of diversion is located as shown on the attached plan.

(c.) The date from which this licence shall have precedence is 9th August, 1934.

(d.) The purpose for which the water is to be used is irrigation.

(e.) The maximum quantity of water which may be diverted is 60 acre feet per annum, and such additional quantity as the District Engineer may from time to time determine should be allowed for losses.

(f.) The period of the year during which the water may be used is from 1st April to 30th September.

(g.) The land upon which the water is to be used is 46 acres of Spuzzum Indian Reserve No. 1, as shown on the attached plan.

(h.) The works for the diversion and carriage of the water are dam, ditch and flume,

(i.) and shall be ~~commenced on or before the day of 19--~~ and ~~shall be~~ completed and the water beneficially used on or before the 31st day of December 1937.

PERMIT UNDER THE WATER ACT AUTHORIZING THE OCCUPATION OF CROWN LAND

The holder of Final Water Licence 11196 and Conditional Water Licences 105875, 107654, 107655 and 107656 whose licences authorize the diversion of water from Skeemis and Inkawathia Creeks, is hereby authorized to occupy Crown Land by constructing, maintaining and operating thereon the works authorized under the said licences and any licences which may be issued in substitution thereof.

(a) The Crown Land which is authorized to be occupied under this permit is a portion of unsurveyed land, Yale Division of Yale District the location of which is shown approximately on the plan attached to the said water licence.

(b) The approximate dimensions of the Crown Land authorized to be occupied under this permit are 4,620 feet in length and 15 feet in width having an area of 1.591 acres for a pipeline.

(c) The permittee may cut and remove from the said Crown Land any timber necessary to permit construction and maintenance of the said works. Prior to the cutting, destruction or flooding of any timber, the permittee shall apply for and obtain a licence to cut timber from the District Manager and the amount of stumpage, royalty and (or) compensation payable to the Crown in respect of trees, including merchantable or young growth, cut, removed, damaged, or destroyed by the permittee, shall be the sum or sums fixed by the Forest Service of the Province of British Columbia.

(d) This permit is appurtenant to the land, mine or undertaking to which the aforesaid water licence is appurtenant.

(e) This permit shall become void if the water licence with respect to which the permit is issued should terminate, be abandoned or cancelled, or amended so as to render this permit unnecessary.

(f) This permit is issued and accepted on the understanding that the permittee shall indemnify and save harmless the Government of the Province of British Columbia for all loss, damage to works, cost or expense suffered by the permittee by reason of the Crown Land or any portion thereof being submerged or damaged by erosion or otherwise affected by flooding.

(g) The holder of this permit shall not be entitled to compensation if the Crown grants permits to other persons to occupy the land affected by this permit.

(h) In the event of a dispute at any time with respect to the area or boundaries of the land affected by this permit, the holder shall, at his own expense, have the said land surveyed by a duly qualified surveyor.

(i) This permit replaces Permit No. 1999.
